A close-up photograph of a white ceramic teapot with a lid, resting on a bamboo mat. The teapot has a simple, rounded design with a small handle on the lid. In the background, a pair of wooden chopsticks lies on the mat. The lighting is soft, highlighting the smooth texture of the stoneware.

Redefining traditional stoneware
for contemporary catering

GRAYSHOTT
STONEWARE

SINCE 1956

DRIVEN BY SERVICE fired with passion

GRAYSHOTT STONEWARE WAS ESTABLISHED IN 1956 AND HAS BUILT A RENOWNED REPUTATION AS AN ENGLISH POTTERY OF DISTINCTION, PRODUCING FINE STONEWARE FOR THE CATERING INDUSTRY.

How have we achieved such a reputation? By remaining true to our founding principle of combining a passion for creating high quality, innovative designs with exceptional service and understanding of our customers' needs.

By keeping one eye on the future and one on the past we've combined experience with the latest developments and created a unique production process that ensures consistency and durability across our range. Our reactive and flexible approach enables us to compete with international manufacturers, which sees our distinctive products adorning the tables of national hotel and restaurant chains up and down the country.

THE STONEWARE renaissance

STONEWARE HAS BEEN VERY POPULAR THROUGH THE AGES FOR ITS PRACTICALITY AND STRENGTH AS WELL AS FOR ITS DECORATIVE PROPERTIES.

We have stayed faithful to stoneware throughout our history, despite the shift by other manufacturers to more cost effective, easier to work with materials. Our belief is that by continuing to make stoneware, our product is characterised and differentiated by the unique qualities and finishes that this remarkable and much overlooked material can deliver.

Stoneware is extremely versatile and durable, safe for the dishwasher, microwave and freezer as well as for oven to table use. Our unique clay body and VitriMax™ firing process produces a tough, vitrified stoneware which out performs many equivalent products in thermal shock resistance and durability tests.*

DISTINCTIVE DESIGNS FOR every palate

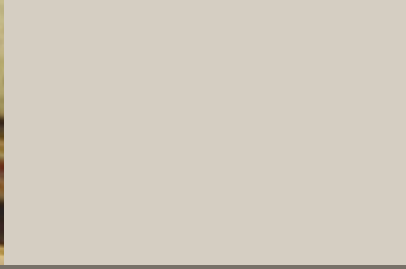

FROM THE RUSTIC CHARMS OF OUR HARVEST COLLECTION TO THE EASTERN INFLUENCED TENMOKU WITH ITS UNIQUE REACTIVE GLAZE, EACH OF OUR COLLECTIONS HAS BEEN COMPILED TO SUIT A VARIETY OF ENVIRONMENTS.

Customers can either select one of our tableware collections, or create a completely original tableware collection by selecting from a catalogue of over 145 items and picking a finish from a palette of 31 glazes. This flexibility and freedom of choice is unique to Grayshott Stoneware and reflects our commitment to treat every one of our customers' needs individually.

But we don't stop there.

Our bespoke design service offers the opportunity to have a custom shape designed, prototyped and produced. Our expertise is working with menu development managers of restaurant chains to help create custom shapes to suit particular menus. We have also created branded and styled tableware to suit the interior designs of brasseries, pubs and restaurants.

ATTENDING TO EVERY detail

OUR CONTINUAL DEVELOPMENT OF DESIGNS, GLAZES AND TECHNIQUES KEEPS OUR PRODUCTS IN-LINE WITH CURRENT TRENDS AND IN SOME CASES SETS THEM.

Each item from our catalogue of designs, as well as being aesthetically pleasing, is also structurally designed for durability and strength, ensuring that our tableware will give years of continual use – delivering style, performance and ultimately value for money.

At every stage of our production process we ensure quality and consistency by hand checking every item. This attention to detail is part of the culture we have developed at Grayshott Stoneware, and is evident throughout the company, from the passion for creativity and pride of workmanship, to the commitment to meeting our customers' deadlines.

We trust that you will find what you are looking for within the quality and wide range of our designs. And if you'd like something really individual, then please contact us to talk through your ideas and our experienced design experts can discuss the options and routes to take to realising the perfect solution.
